TABLE OF CONTENTS

QH581
E95

v. 26-27

NUMBER 1, FEBRUARY 1962

CHVAPIL, M., HOLEČKOVÁ, E., ČMUCHALOVÁ, B., KOBRLE, V. and HURYCH, J., Ultrafiltrable and collagen-bound hydroxyproline in chicken lung tissue cultures and in subcellular fractions 1

HILLIS, W. D. and BANG, F. B., The cultivation on human embryonic liver cells 9

NAGAI, S., Victoria blue and night blue affecting the production of respiration-deficient mutants in yeast 37

AMAROSE, A. P. and CZAJKA, D. M., Cytopathic effects of deuterium oxide on the male gonads of the mouse and dog 43

WRBA, H. und RABES, H., Zur Methode der quantitativen Bestimmung des Umsatzes an markierten Stoffen durch Organkulturen 62

WRBA, H., RABES, H., RIPOLL-GÓMEZ, M. und RANZ, H., Die stoffwechselsteigernde Wirkung von Serum teilhepatektomierter Tiere auf Leberkulturen 70

EMMART, E. W., SPICER, S. S., TURNER, W. A. and HENSON, J. G., The localization of glyceraldehyde-3-phosphate dehydrogenase within the muscle of the roach, *Periplaneta americana*, by means of fluorescent antibody . . 78

OKADA, Y., Analysis of giant poly-nuclear cell formation caused by HVJ virus from Ehrlich's ascites tumor cells. I. Microscopic observation of giant poly-nuclear cell formation 98

OKADA, Y. and TADOKORO, J., Analysis of giant poly-nuclear cell formation caused by HVJ virus from Ehrlich's ascites tumor cells. II. Quantitative analysis of giant poly-nuclear cell formation 108

OKADA, Y., Analysis of giant poly-nuclear cell formation caused by HVJ virus from Ehrlich's ascites tumor cells. III. Relationship between cell conditions and fusion reaction or cell degeneration reaction. 119

MICHL, J., Metabolism of cells in tissue culture *in vitro*. II. Long-term cultivation of cell strains and cells isolated directly from animals in a stationary culture 129

STICH, H. F., Variations of the deoxyribonucleic acid (DNA) content in embryonal cells of *Cyclops strenuus* 136

MITCHISON, J. M. and WILBUR, K. M., The incorporation of protein and carbohydrate precursors during the cell cycle of a fission yeast 144

RIDDLE, J., Studies on the membrane potential of *Pelomyxa carolinensis* . . . 158

VINCENT, J., BÉLANGER, L. F. et MIGICOVSKY, B. B., Minéralisation dans l'os rachitique. Étude alpharadiographique et microradiographique 168

ELIASSON, E., Arginase in young chick embryos. I. The nature of the changes in activity during development 175

KIESSLING, K.-H. and LUNDQUIST, C.-G., Thiamine diphosphate in growing tissues. III. Pyruvate oxidation in liver mitochondria from young and from thiamine diphosphate deficient adult rats 189

KIESSLING, K.-H. and LUNDQUIST, C.-G., Thiamine diphosphate in growing tissues. IV. Pyruvate oxidation in muscle mitochondria from young rats and in mitochondria from malignant tissues 198
GUTTES, E. and GUTTES, S., Cell growth and mitosis in *Physarum polycephalum*. I. The effect of an increased nutrient supply upon the onset of mitosis. . 205

PRELIMINARY NOTES

REALE, E., Electron microscopic localization of alkaline phosphatase from material prepared with the cryostat-microtome 210
GRESSON, R. A. R., The membrane system of the oocyte of *Fasciola hepatica* L. 212
KUYPER, CH. M. A., SMETS, L. A. and PIECK, ANNA C. M., The life cycle of a strain of liver cells cultivated *in vitro* 217
FITZGERALD, P. H., The Ph^1 chromosome in uncultured leukocytes and marrow cells from human chrontic granulocytic leukaemia. 220
KOHN, R. R., Age-related variation in susceptibility of human muscle protein to enzymatic digestion. 223
BERGSTRÖM, R. M. and SALMI, A., Radiation-induced damage in the ultrastructure of striated muscle 226

NUMBER 2, MARCH 1962

ECHLIN, P. and DELAMATER, E. D., A cytological and chemical analysis of the bacterial nucleus. II. A study of the cytochemical changes involved during the isolation of bacterial nuclear material by means of bile salts and high-frequency sound waves 229
NAGAI, S., Stabilizing effect of caffeine on a respirationally unstable strain of yeast 253
PRESCOTT, D. M. and BENDER, M. A., Synthesis of RNA and protein during mitosis in mammalian tissue culture cells 260
OGAWA, Y., Synthesis of skeletal muscle proteins in early embryos and regenerating tissue of chick and *Triturus* 269
BELLARIS, R. and NEW, D. A. T., Phagocytosis in the chick blastoderm . . . 275
SOBIN, L. H., Cytoplasmic inclusions in cells of lymphosarcoma 6C3HED: II. Electron microscopic observations 280
MAHLBERG, P. G., Isolation of a floating cell strain from submerged cell cultures of *Euphorbia marginata* pursh 290
BECK, J. S., Investigations into the affinity of some preparations of human serum albumin for cell nuclei 296
GUTHRIE, J., The chromosomes and genetic sex of experimental avian testicular teratomas 304
LYTTLETON, J. W., Isolation of ribosomes from spinach chloroplasts 312
LITTLEFIELD, J. W., DNA synthesis in partially synchronized L cells 318
FREED, J. J., Continuous cultivation of cells derived from haploid *Rana pipiens* embryos. 327

NILSSON, O., The effect of estrogen on the histology of the uterine epithelium of the mouse. I. Electron microscopy of decomposing lipid granules 334
GROVER, J. W., The influence of age and environmental factors on the behavior of reaggregated embryonic lung cells in culture 344
BERECH, JR., J. and VAN WAGTENDONK, W. J., An autoradiographic study of the macronuclear changes occurring in *Paramecium aurelia* during autogamy 360
VAN DUIJN, JR., C., Toxic and photodynamic effects of toluidine blue on living bull spermatozoa 373
MARUYAMA, Y. and LARK, K. G., Periodic nucleotide synthesis in synchronous cultures of bacteria 382
GELFANT, S., Initiation of mitosis in relation to the division cycle 395
HSU, T. C. and SOMERS, C. E., Properties of L cells resistant to 5-bromodeoxyuridine 404
KAWAMURA, K. and CARLSON, J. G., Studies on cytokinesis in neuroblasts of the grasshopper *Chortophaga viridifasciata* (de Geer). III. Factors determining the location of the cleavage furrow 411

PRELIMINARY NOTES

NASS, M. M. K. and NASS, S., Fibrous structures within the matrix of developing chick embryo mitochondria 424
DAS, N. K., Demonstration of a non-RNA nucleolar fraction by silver staining 428
KIESSLING, K.-H., The effect of acetaldehyde on rat brain mitochondria and its occurrence in brain after alcohol injection 432
HELLSTRÖM, K. E., HELLSTRÖM, I. and SJÖGREN, H. O., Karyologic studies on polyoma virus induced mouse tumors 434

NUMBER 3, APRIL 1962

KUBITSCHEK, H. E., Normal distribution of cell generation rate 439
EISENBERG, S., BEN-OR, S. and DOLJANSKI, F., Electro-kinetic properties of cells in growth processes. I. The electrophoretic behaviour of liver cells during regeneration and post-natal growth 451
GERISCH, G., Zellfunktionen und Zellfunktionswechsel in der Entwicklung von *Dictyostelium discoideum*. VI. Inhibitoren der Aggregation, ihr Einfluss auf Zellkontaktbildung und morphogenetische Bewegung 462
STENRAM, U., Radioautographic studies with methionine-^{3}H and cytidine-^{3}H on protein deficiency in mice and rats with special reference to liver cells . 485
WRBA, H. und RABES, H., Zum Nachweis von Wechselwirkungen zwischen explantierten Organen mit Hilfe von „Konfrontations-Röhrchen“. 493
VICKERMAN, K., Patterns of cellular organisation in *Limax* amoebae. An electron microscope study 497
MACGREGOR, H. C., The behavior of isolated nuclei 520
OGAWA, Y., Biochemical relation between actin and myosin syntheses during the differentiation of skeletal muscle tissue of *Triturus* 526

HOSKINS, G. C. and MONTGOMERY, P. O'B., Nucleolar phagocytosis by HeLa and Chang liver cells in tissue culture as studied by time lapse phase contrast cinematography 534
HILL, M. and JAKUBÍČKOVÁ, J., Intercellular passage of DNA as revealed in bone marrow autoradiographs 541
FALZONE, J. A., BARROWS, C. H. and YIENGST, M. J., Fractionation of rat liver nuclei into diploid and tetraploid DNA classes by continuous density gradient sedimentation 552
YOUNG, R. W., Regional differences in cell generation time in growing rat tibiae 562
DEUCHAR, E. M., Amino-acid activation in embryonic tissues of *Xenopus laevis*. II. Hydroxamic acid formation in the presence of L-leucine 568
HINZ, R. W., BARSKI, G. and BERNHARD, W., An electron microscopic study of the development of the encephalomyocarditis (EMC) virus propagated *in vitro* 571
HARTH, S., BORKOWSKI, T., MARDELL, R. and MANDEL, P., Incorporation of ^{32}P in the phospholipids of the subcellular fractions of various parts of the rat central nervous system 587

PRELIMINARY NOTES

RIXON, R. H. and WHITFIELD, J. F., The effect of elevated salt concentration on the nuclear structure of L mouse cells 591
WEBSTER, G., WHITMAN, S. L. and HEINTZ, R. L., Heterogeneity of pea ribosomes with regard to protein synthesis 595
JURAND, A., GIBSON, I. and BEALE, G. H., The action of ribonuclease on living paramecia 598
TÖRÖ, I., RUZSA, P. and RÖHLICH, P., Ultrastructure of early phagocytic stages in sinus endothelial and Kupffer cells of the liver 601
CERRONI, R. E. and ZEUTHEN, E., Inhibition of macromolecular synthesis and of cell division in synchronized *Tetrahymena* 604
VON HOFSTEN, B., The effect of copper on the growth of *Escherichia coli* . . . 606
HELLSTRÖM, I. and HELLSTRÖM, K. E., Variations in the sensitivity to polyoma virus in cultures of polyoma tumors and other neoplasms 608
